Table Of Contents

1.1.Authentication

S15-FC-1: Register to the system as a user

S15-FC-35: User registration with missing field

S15-FC-2: Register to the system as an admin

S15-FC-3: Log in to the system as a user - successfully

S15-FC-27: User login with missing email

S15-FC-28: User login with missing password

S15-FC-29: User login with wrong email

S15-FC-30: User login with wrong password

S15-FC-4: Log in to the system as an admin - successfully

S15-FC-31: Admin login with missing email

S15-FC-32: Admin login with missing password

S15-FC-33: Admin login with wrong email

S15-FC-34: Admin login with wrong password

S15-FC-39: Credentials does not exist in the system

1.2.Ration

S15-FC-5: Add Ration Successfully

S15-FC-6: Update Ration Successfully

S15-FC-7: Approve/Reject Ration Successfully

S15-FC-8: View Ration Successfully

S15-FC-18: Add Ration Unsuccessfully

S15-FC-19: Approve/Reject Ration Unsuccessfully

S15-FC-20: View Ration Unsuccessfully

S15-FC-21: Update Ration Unsuccessfully

1.3.Compartment

S15-FC-9: Assign Compartment Successfully

S15-FC-10: Add new compartment Successfully

S15-FC-24: Assign Compartment Unsuccessful

S15-FC-25: Add new compartment number Unsuccessful

1.4.Health Declaration

S15-FC-11: Update Health Form

S15-FC-22: Update Health Form Unsuccesful

1.5.Dependent

S15-FC-13: Edit Dependent-Successfully

S15-FC-14: Delete Dependent

S15-FC-26: Create Dependent- Successfully

S15-FC-36: Create Dependent- Unsuccessfully

S15-FC-37: Edit Dependent-Unsuccessfully

1.6.Profile

S15-FC-15: Edit Profile

S15-FC-23: Edit Profile Unsuccessful

1.7.Service Feedback

S15-FC-16: Service Feedback-Successfully

S15-FC-38: Service Feedback-Unsuccessfully

1.8.Not Tested

S15-FC-40: Access F.A.Q

S15-FC-41: Contact Details

Test Plan: TP-S15-FC-FRS

Test Plan for System Testing of Flood Relief System (FRS) Release 1. This Test Plan will include the test cases related to all use cases for Release 1.

Build: Build v0.0.1

Features included in this build:

Features being tested	Level of Risk	Prioirty
• Register to the system as a user • Register to the system as an admin • Log in to the system as a user • Log in to the system as an admin	Critical – This defect will cause the other functions not being able to work	Critical
• Add Ration • Update ration • Approve/Reject Ration • View Ration • Assign Compartment • Add new compartment number	Critical – This defect will cause the other functions not being able to work	High
• Update Health Form • Create Dependent • Edit dependent • Delete Dependent • Edit Profile • Service Feedback	Medium – The system remains operational although it causes certain unwanted behaviour	Medium

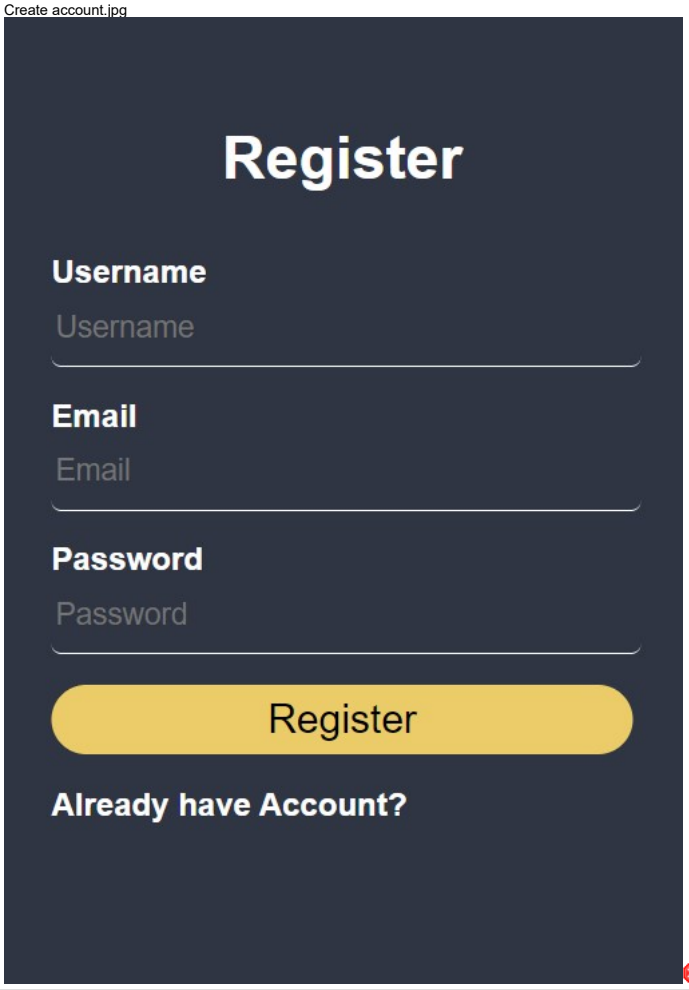
Features defined in the FRS SRS, but not included in this build:

Features not being tested	Level of risk	Priority
Access (FAQ)	Low – This feature only lists out some important questions regarding the flood	Low
Contact Details	Low – This feature only displays the contact information and enquiry list	Low

1.1.Test Suite : Authentication

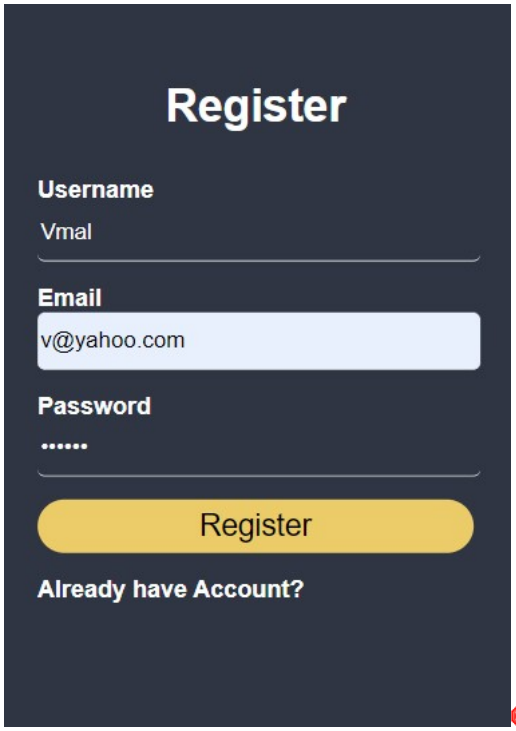
Test Case S15-FC-1: Register to the system as a user				
Author:	S15-FC-Yusuf			
Summary: The test case checks if the user is registered to the system successfully.				
Preconditions: Established internet connection				
#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	User clicks on "Create New Account" on login page	Registration page of new account is shown	User proceeds for creating account	Passed

Execution Attachments
- Create account.jpg



2	User fills in the required fields Test data: Username: Vmal Email: v@yahoo.com Password: 123123	User enters the required information	User enters Vmal for username, v@yahoo.com for email and 123123 for password	Passed

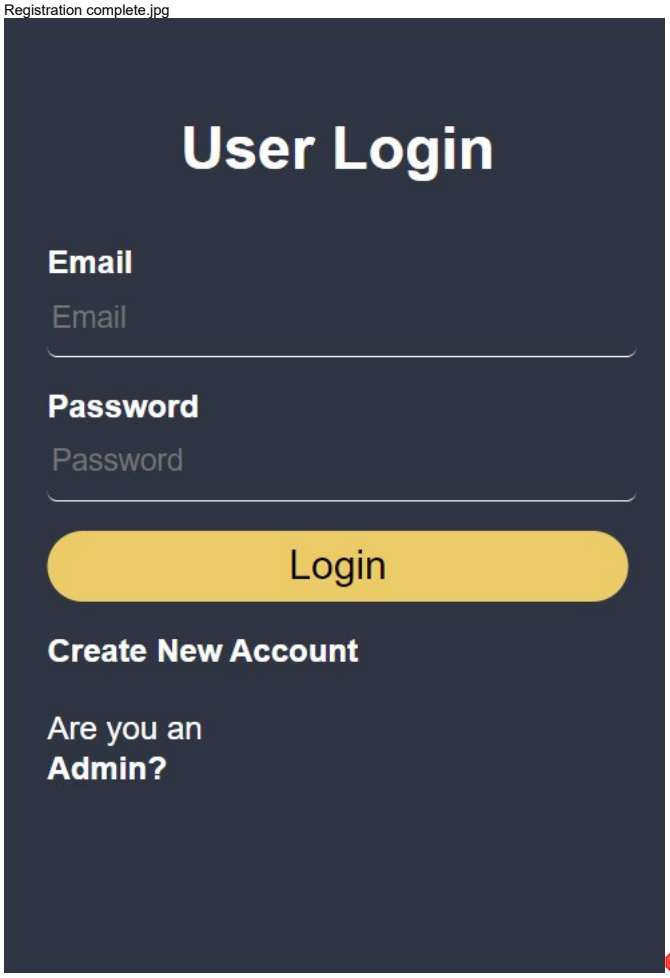
Execution Attachments
- Create account details entered.jpg



3	User clicks on "Register" and the system passes validation	User is directed to login page	User is successfully registered to the system	Passed

Execution Attachments

- Registration complete.jpg



Execution type:	Manual
Estimated exec. duration (min):	
Priority:	High

Execution duration (min):	**1.00**

Test Case S15-FC-35: User registration with missing field

Author:	S15-FC-Yusuf
Last edit by:	S15-FC-Ruhul

Summary:

This test case checks for any field that is not filled out

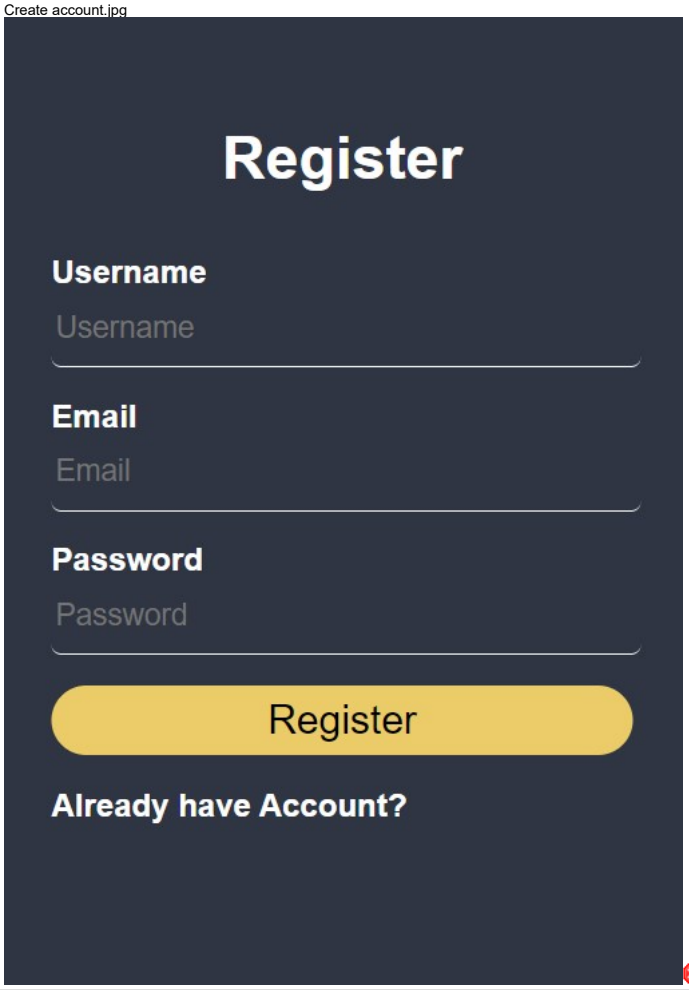
Preconditions:

Established internet connection

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	User clicks on "Create New Account" on login page	Registration page of new account is shown	User does new registration	Passed

Execution Attachments

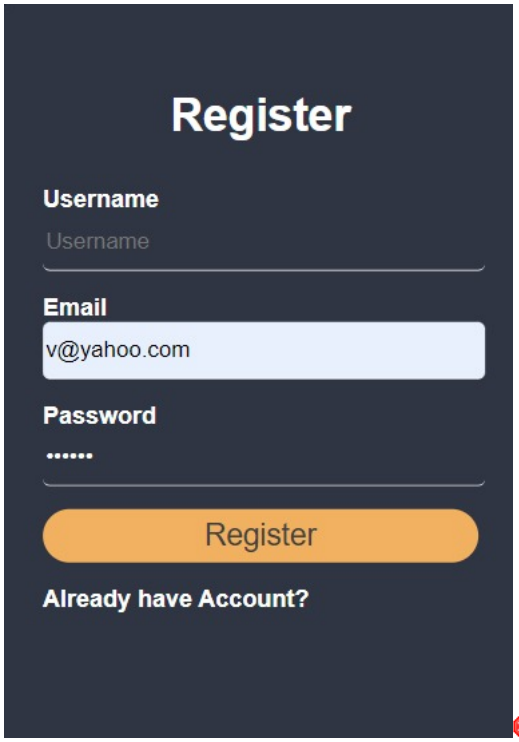
- Create account.jpg



2	User fills in the required fields Test data: Username: Email: v@yahoo.com Password: 123123	User enters the required information	User fill in the details for registration leaving username field blank	Passed

Execution Attachments

- User register.jpeg



3	User clicks on "Register" and the system passes validation	The system reloads the page as validation failed with error message "Please fill in the required field".	User cannot register because Username field is blank	Passed

Execution Attachments

- Username field left blank.jpeg

Test Case S15-FC-2: Register to the system as an admin				
Author:	S15-FC-Yusuf			
Summary:				
The test case checks if the admin is registered to the system successfully.				
Preconditions:				
Established internet connection				
#:	Step actions:	Expected Results:	Execution notes:	Execution

				Status:
1	Admin clicks on "Create New Account" on login page	Registration page of new account is shown	Admin is able to register from Create New Account page	Passed
2	Admin fills in the required fields. Test data: Username: Admin Email: admin1@yahoo.com Password: 111111	Admin enters the required information	Admin is able to fill in the required field	Passed
3	Admin clicks on "Register" and the system passes validation	Admin is directed to login page	Admin successfully registers to the system	Passed

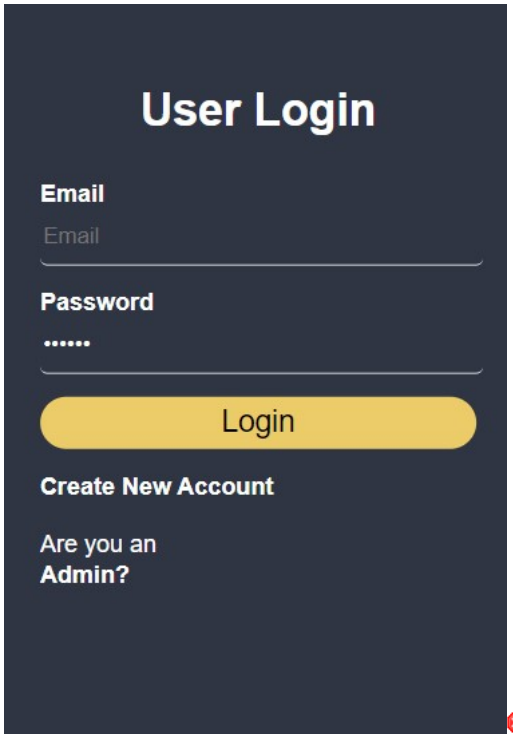
Test Case S15-FC-27: User login with missing email				
Author:	S15-FC-Yusuf			
Last edit by:	S15-FC-Ruhul			
Summary:				
The system validates that the user cannot login without email				
Preconditions:				
The user must be registered and data is stored in database for validation				
#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	The user clicks on the password field and enters valid password Test data: 123123	The system allows the user to type in the password	User enters 123123, valid password used during registration	Passed

Execution Attachments
- User enters valid password.jpg



2	The user clicks on "Login"	The system displays error message "Please fill in the required field" for missing email	User is denied access as email field is left blank	Passed

Execution Attachments

Test Case S15-FC-29: User login with wrong email	
Author:	S15-FC-Yusuf

Last edit by:	S15-FC-Ruhul

Summary:

The system validates if the user can login with wrong email but correct password.

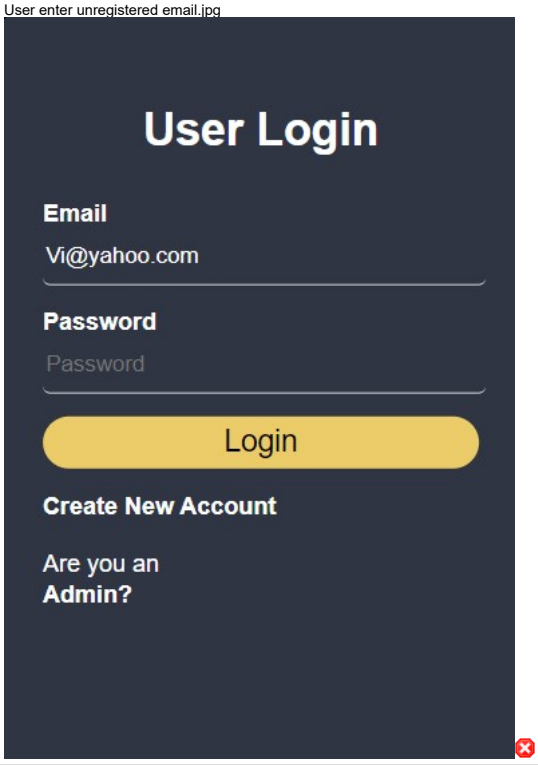
Preconditions:

The user must be registered and data is stored in database for validation

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	The user clicks on the email field, and enters worng email Test data: Vi@yahoo.com	The system allow the user to type in the email	User enters Vi@yahoo.com to login	Passed

Execution Attachments

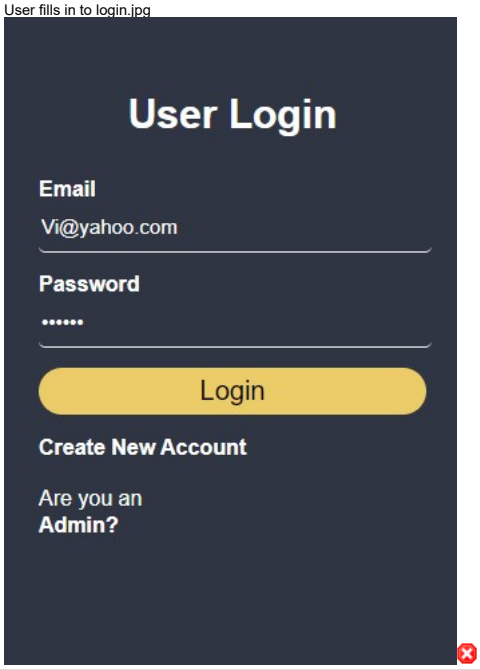
- User enter unregistered email.jpg



2	The user clicks on the password field, and enters the password Test data: 123123	The system allow the user to type in the password	User enters 123123 to login	Passed

Execution Attachments

- User fills in to login.jpg



3	The user clicks on "Login"	The system prompts with error message saying either email or password is wrong.	User sees an error message because of unregistered email	Passed

Execution Attachments

- User is denied to login.jpg

1.2.Test Suite : Ration

Test Case S15-FC-5: Add Ration Successfully				
Author:	S15-FC-Yusuf			
Last edit by:	S15-FC-Ruhul			
Summary:				
Add ration is a button that will take the user to the ration pages to add types of food				
Preconditions:				
User database must not be empty				
#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	Admin clicks on the button "Add Ration"	The system will take the admin to the ration package to select	Admin is redirected to the ration package page	Passed
2	Admin select one of the check box and then click on the "Add" button Test data: "Breakfast"	Ration Added Successfully	Admin selects Breakfast for ration package	Passed
Execution type:	Manual
