Test Plan: TP-S15-FC-FRS

Test Plan for System Testing of Flood Relief System (FRS) Release 1. This Test Plan will include the test cases related to all use cases for Release 1.

1.1. Test Suite : Authentication

Test Case S15-FC-1: Register to the system as a user	
Author:	S15-FC-Yusuf
Summary:	
The test case checks if the user is registered to the system successfully.	
Preconditions:	
Established internet connection	

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	User clicks on "Create New Account" on login page	Registration page of new account is shown	Expected Results achieved	Passed
2	User fills in the required fields Test data: Username: Vmal Email: v@yahoo.com Password: 123123	User enters the required information	Expected Results achieved	Passed
3	User clicks on "Register" and the system passes validation	User is directed to login page	Expected Results achieved	Passed

Execution type:	Manual
Estimated exec. duration (min):	
Priority:	High
Requirements	None
Keywords:	None
Execution Details	
Build	Build v0.0.2
Tester	S15-FC-Yusuf
Execution Result:	**Passed**
Execution Mode:	**Manual**
Execution duration (min):	**1.00**

Test Case S15-FC-35: User registration with missing field	
Author:	S15-FC-Yusuf
Last edit by:	S15-FC-Ruhul
Summary:	
This test case checks for any field that is not filled out	
Preconditions:	
Established internet connection	

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	User clicks on "Create New Account" on login page	Registration page of new account is shown	Expected Results achieved	Passed
2	User fills in the required fields	User enters the required information	Expected Results	Passed

	Test data: Username:
	
	         Email:
	v@yahoo.com
	
	         Password:
	123123
				achieved	

3	User clicks on "Register" and the system passes validation	The system reloads the page as validation failed with error message "Please fill in the required field".		Expected Results achieved	Passed

Execution type:	Manual
Estimated exec. duration (min):	
Priority:	High
Requirements	None
Keywords:	None
Execution Details	
Build	Build v0.0.2
Tester	S15-FC-Yusuf
Execution Result:	**Passed**
Execution Mode:	**Manual**
Execution duration (min):	**1.00**

Test Case S15-FC-2: Register to the system as an admin	
Author:	S15-FC-Yusuf
Last edit by:	S15-FC-Ruhul
Summary:	

The test case checks if the admin is registered to the system successfully.

Preconditions:

Established internet connection

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	Admin clicks on "Create New Account" on login page	Registration page of new account is shown	Expected Results achieved	Passed

2	User fills in the required fields.
	
	Test data: Username: Admin
	
	         Email: admin1@yahoo.com
	
	         Password: 111111
		Admin enters the required information	Expected Results achieved	Passed

3	Admin clicks on "Register" and the system passes validation	Admin is directed to login page	Expected Results achieved	Passed

Execution type:	Manual
Estimated exec. duration (min):	
Priority:	High
Requirements	None
Keywords:	None
Execution Details	
Build	Build v0.0.2
Tester	S15-FC-Yusuf
Execution Result:	**Passed**
Execution Mode:	**Manual**
Execution duration (min):	**1.00**

Test Case S15-FC-3: Log in to the system as a user - successfully

Author:	S15-FC-Yusuf
Summary:	

This test case checks whether the system logs the user in if the entered credentials are valid.

Preconditions:

The user should be registered to the system.

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	Display login page	The login page is shown where the user needs to enter valid email and password.	Expected Results achieved	Passed
2	User selects email field and enters data that exist in the database for registered users. Test Data: v@yahoo.com	The system allows user to type in the email.	Expected Results achieved	Passed
3	User selects password field and enters data that exist in the database for registered users. Test Data: 123123	The system allows user to type in the password.	Expected Results achieved	Passed
4	The user clicks on "Login"	Display login success message, then redirect to home page.	Expected Results achieved	Passed

Execution type:	Manual
Estimated exec. duration (min):	
Priority:	High

Requirements	None
Keywords:	None
Execution Details	
Build	Build v0.0.2
Tester	S15-FC-Yusuf
Execution Result:	**Passed**
Execution Mode:	**Manual**
Execution duration (min):	**1.00**

Test Case S15-FC-27: User login with missing email

Author:	S15-FC-Yusuf
Last edit by:	S15-FC-Ruhul
Summary:	

The system validates that the user cannot login without email

Preconditions:

The user must be registered and data is stored in database for validation

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	The user clicks on the password field and enters valid password Test data: 123123	The system allows the user to type in the password	Expected Results achieved	Passed
2	The user clicks on "Login"	The system displays error message "Please fill in the required field" for missing email	Expected Results achieved	Passed

Execution type:	Manual
Estimated exec. duration (min):	
Priority:	High

Requirements	None
Keywords:	None
Execution Details	
Build	Build v0.0.2
Tester	S15-FC-Yusuf
Execution Result:	**Passed**
Execution Mode:	**Manual**
Execution duration (min):	**1.00**

Test Case S15-FC-28: User login with missing password

| Author: | S15-FC-Yusuf |
| Last edit by: | S15-FC-Ruhul |

Summary:

The system validates that the user cannot login without password

Preconditions:

The user must be registered and data is stored in database for validation

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	The user clicks on the email field and enters valid email Test data: v@yahoo.com	The system allow the user to type in the email	Expected Results achieved	Passed
2	The user keep the field for password empty and clicks on "Login"	The system displays error message "Please fill in the required field" for missing password	Expected Results achieved	Passed

Execution type:	Manual
Estimated exec. duration (min):	
Priority:	High

Requirements	None
Keywords:	None
Execution Details	
Build	Build v0.0.2
Tester	S15-FC-Yusuf
Execution Result:	**Passed**
Execution Mode:	**Manual**
Execution duration (min):	**1.00**

Test Case S15-FC-29: User login with wrong email

| Author: | S15-FC-Yusuf |
| Last edit by: | S15-FC-Ruhul |

Summary:

The system validates if the user can login with wrong email but correct password.

Preconditions:

The user must be registered and data is stored in database for validation

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1			Expected	Passed

	The user clicks on the email field, and enters worng email Test data: Vi@yahoo.com	The system allow the user to type in the email	Results achieved	
2	The user clicks on the password field, and enters the password Test data: 123123	The system allow the user to type in the password	Expected Results achieved	Passed
3	The user clicks on "Login"	The system prompts with error message saying either email or password is wrong.	Expected Results achieved	Passed

Execution type:	Manual
Estimated exec. duration (min):	
Priority:	High
Requirements	None
Keywords:	None
Execution Details	
Build	Build v0.0.2
Tester	S15-FC-Yusuf
Execution Result:	**Passed**

1.2.Test Suite : Ration

Test Case S15-FC-5: Add Ration Successfully				
Author:	S15-FC-Yusuf			
Last edit by:	S15-FC-Ruhul			
Summary:				
Add ration is a button that will take the user to the ration pages to add types of food				
Preconditions:				
User database must not be empty				

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	Admin clicks on the button "Add Ration"	The system will take the admin to the ration package to select	Expected Results achieved	Passed
2	Admin select one of the check box and then click on the "Add" button Test data: "Breakfast"	Ration Added Successfully	Expected Results achieved	Passed

Execution type:	Manual

Test Case S15-FC-7: Approve/Reject Ration Successfully

Author:	S15-FC-Yusuf
Last edit by:	S15-FC-Ruhul

Summary:

Once the admin added the ration and the compartment number is fixed, then the admin can update the ration to pending/approval/rejected

Preconditions:

Ration must be added first

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	Admin go to the "Requirements from victim" page.	The system displays all the list of the victims	Expected Results achieved	Passed
2	Admin select type of action from the menu option and then click on the "Update" button Test Data: Approve	The system promts that "Updated ration distribution"	Expected Results achieved	Passed

Execution type:	Manual

1.3.Test Suite : Compartment

Test Case S15-FC-9: Assign Compartment Successfully

Author:	S15-FC-Yusuf
Last edit by:	S15-FC-Ruhul

Summary:

The admin will be able to view all the active victim's member account, and the initial compartment assigned.

Preconditions:

The victim vacates the compartment

Already have an account

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	The admin clicks on assigned button Test data: 17	Successfully assigned the compartment for a victim	Expected Results achieved	Passed

Execution type:	Manual
